

Message from Associate Editor

Dr. Zarna Dedania*

Associate Editor, Journal of Integrated Pharmaceutical Sciences

As an Associate Editor of *Journal of Integrated Pharmaceutical Sciences*, an official publication of Bhagwan Mahavir University, I welcome you all at this first issue of this journal. The aim of a scientific publication is to advance the knowledge of the discipline as a whole. One of the cornerstones of academia is archival journal publication. Publishing provides a communication channel for researchers within a field, a repository of important research efforts, and a recognition for researchers and institutions alike.

The most critical components of any scientific journal's success are the submission of high-quality manuscripts, the dedication of members of its editorial board, and excellence of those reviewing the manuscripts. Myself and Dr. Girish Sailor, as an associate editor ensure that manuscripts move through review and revision as efficiently as possible. We will take utmost care for rigorous peer review of all submitted manuscripts to accept quality contents without any fringe of conflict for publication.

We invite the researchers to share knowledge and research activities in the form of review and research article for the publications at *Journal of Integrated Pharmaceutical Sciences* and hence contribute to the field of innovative research.
