

Message from Editor-in-Chief

Dr. Vineet C Jain*

Editor-in-Chief, Journal of Integrated Pharmaceutical Sciences

INAUGURARE ... to unveil ... to usher in ... "For the beginning is thought to be more than half of the whole, and many of the questions we ask are cleared up by it. We must presumably first sketch it roughly, and then later fill in the details... for any one can add what is lacking." -**Aristotle**.

We are very glad to present the first volume of pharmaceutical research journal of **Bhagwan Mahavir College of Pharmacy** under the aegis of **Bhagwan Mahavir University** with title "*Journal of Integrated Pharmaceutical Science JIPS*".

This volume contains a wide range of research papers covering different spectrums of pharmaceuticals. Authors from different areas like technical, personnel, academicians and pharmaceutical contributed peer quality research papers to this Journal. This journal will be very helpful to develop a new breed of Entrepreneurs and Research Scholars.

We would like to place in record the patronage and support provided by our beloved, BMU Provost **Dr. Nirmal Sharma**, BMU-Dean Research **Dr. K N Mistry** and other authorities of BMU for their encouragement in publishing this pharmaceutical research journal.

The journals aim to publish a broad ranging open access journal, eminent editorials from thought out the world, rapid publication High visibility, Expert peer-reviewed research that will serve to create innovative information.

Journals invite you to submit a manuscript which provides envisioned to publish high-quality, peer-reviewed research, reports, review articles, technical briefs, Software review, datasets briefs, product news, and case study in all areas of biological, pharmaceutical and chemical technology that will serve to create a holistic understanding of the human dimension in these society. We are inviting authors to send for the same.

Thankful to **Dr. Zarna Dedania & Dr. Girish Sailor** Associate Editor of Journal for successfully bringing this issue at right time. At the end, we hope that this issue of **JIPS** would fortify the bond between industry, researcher & academia fostering evolution of the pharmaceutical world.
